Learning and Knowledge Exchange Dialogues 2018

Building a shared understanding of evidence and best practice across sectors

Learning and Knowledge Exchanges aim to;

- facilitate strong engagement and collaboration between researchers, service providers, practitioners and the community
- support the development and diffusion of a stronger evidence base
- capture innovative programs
- promote a shared understanding of good quality evidence and best practice across sectors.

Sessions;

- are interactive to enable ample opportunity for participation, discussion and exploration of the practical application of learning in practice
- focus on building and nurturing the relationships between those who produce research and those who might use research knowledge to enable an exchange of information, ideas and experience.
- Integral to the exchange is to build capacity to use research knowledge and to ensure that research is relevant to the needs.
